You can park in any space that is not marked and also where there are signs that say Patient Parking. These signs are found close to buildings in the outdoor lots as well as in the underground parkade.

There are also parking spaces very close to critical areas that let you get into the building quickly, such as close to Emergency. These spaces are for short term parking only. Please read the signs before you park. Cars parked beyond the allowed time are ticketed.

The disability parking spaces closest to BC Children's Hospital are:

- In the underground parkade next to the elevator entrance
- In front of the Emergency entrance
- At the east end of the parking lot beside the Ambulatory Care Building

Allow plenty of extra time for finding a spot and for walking across the large site to your appointment.

What if I can't find a space or need help to park?

There is a free valet service at the entrance of BC Children's Hospital. You pay for parking when you leave but there is no cost for the valet service.

How do I pay for parking?

Look for the green pay stations found throughout the site. Pay before you leave and avoid any lineups at the cashier.

1. Put your "entry ticket" into the machine to start the menu.
2. Pay with cash or credit card. VISA and MasterCard are accepted.
3. You'll have 15 minutes to exit the site once you have prepaid.

If you have the Sunshine Bundle package you have a one day parking pass. For more information about the Sunshine Bundle, please see our website at www.bcchildrens.ca/yourvisit/accommodationchoices
